

BRB Molecular Imaging Center Regulations:

1. Please make sure to get access to the Imaging suite before imaging.
2. Only authorized users are allowed in the Imaging suite.
3. Never give your badge to your coworkers to access the BRB Animal Facility and the BRB Imaging Center.
4. All users should be scheduled in order to use the imaging equipment.
5. Please sign in the log-book in every imaging room.
6. Always pay attention to all instructions posted in every imaging room.
7. We also ask you to keep the imaging room clean.

When finished imaging, please make sure the room and the imaging equipment are in the same clean condition you found it.

Use 70% Ethanol to clean the imaging equipment, and MB-10 spray to clean the surfaces.

Animal return policy:

After the imaging **all animals have** to be placed in the **High Risk Return Area B-16** for mice, and **B-20 B** for rats.

Once you have been in the Imaging Suite you are not allowed to return to any other suites in the BRB Animal Facility the same day except the High Risk Return rooms.

Scheduling and Cancellation policy:

To schedule an imaging appointment please use the web site scheduler.

While scheduling scans please give us the actual time you are planning to use the imaging equipment. You will be charged for the time you have requested.

If you need **to cancel imaging** please notify us:

PET, SPECT, and CT imaging – 48 hours (24 hours cancellation is accepted for emergency only)

MRI – 24 hours

Xenogen – 24 hours

Faxitron – 24 hours

Ultrasound – 24 hours

NO dissection is allowed in the Imaging Center. Please use only designated area at the BRB Animal Facility, room B-16 A.

Failure to follow the Molecular Imaging Center and BRB Animal Facility guidelines may result in:

- Loss of access to the BRB Facility;
- Suspension of the whole research group.
